

# Chunky tassels shawl

By Pysselofix – Helena Molinsky

**Yarn:** 2 skeins Phil Express from Phildar in the colour Rosee.

**Hook:** 15mm

**Measure:** 135cm furthest edge.

## Abbreviations (US)

ch – chain

sl st – slip stitch

sc – single crochet

hdc – half double crochet

dc – double crochet

## Good to know

- Turn the shawl after every row.
- The shawl is crocheted in a bigger hook than recommended for the yarn, so that it will get extra light and cozy.

**1:** ch3, 2dc in the first stitch.

**2:** ch2, 1dc in the same stitch, ch1, 2dc in the last of the three chain that started the work.

**3:** ch2, 1dc in the same stitch, ch1, 2dc around the chain space, ch1, 2dc in the second of the two stitches that started last row.

**4–12:** ch2, 1dc in the same stitch, (ch1, 2ds around the next chain space) x2. Ch1, 2dc in the second of the two stitches that started last row.

The repeat of the text in brackets increases once for each row. Therefore, on row 12 it repeats 10 times.

Once row 12 is done continue and ch20. Finish and cut the thread.

Turn the work and attach the yarn with 1sl st in the second of the two stitches in the beginning of row 12. Ch20.

**13:** 1dc in the third stitch from the hook. (ch1, skip 2 stitches, 2dc) x5. Ch1, skip 1 stitch, 1dc, 1dc in the slip stitch that attached the yarn. (ch1, 2dc around the chain) x11. (ch1, 2dc, skip 1 stitch) x6. Ch1, skip 1 stitch, 1dc, 1hdc.

Cut off the yarn and weave in the ends. It may be easier if you split the thread, which consists of four thinner threads, and weave them in to different directions.

## **Fringes/Tassels**

Attaching fringes is of course optional, although I think they do half the shawl. Cut threads in 38cm long threads and attach them to the edge, in every other loop.

For the hook through the loop, from the bottom, around the middle of a thread and pull back. Pull the edges through the loop and tighten up.

Divide the threads in the fringes in the middle for one softer and cozy look.

Here is the shawl make in the color Minerai.
